??**d**?????1920???1950??

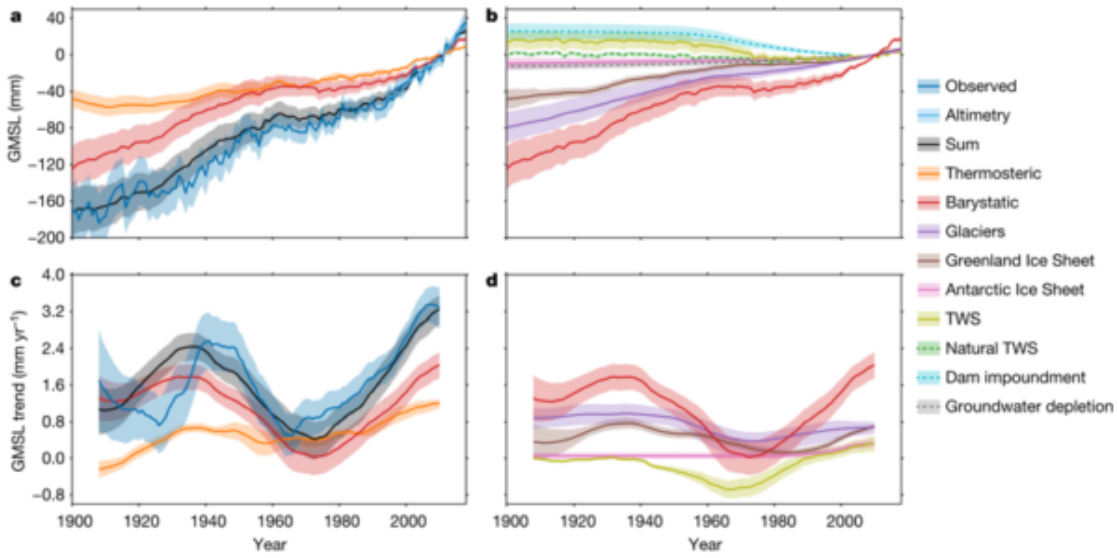

Fig. 1 | Observed GMSL and contributing processes. a, Observed GMSL, and the estimated barystatic and thermosteric contributions and their sum. **b**, The barystatic contribution and its individual components. The TWS term is the sum of groundwater depletion, water impoundment in artificial reservoirs and the natural TWS term. **c**, 30-year-average rates of observed GMSL change and of GMSL change as a result of the different contributing processes. **d**, 30-year-average rates of GMSL change due to the barystatic contribution and its individual components. The shaded regions denote 90% confidence intervals. The values in **a** and **b** are relative to the 2002–2018 mean.
