Have you noticed Big Oil just reported its profits? ?Record profits.?Last year, they made \$200 billion in the midst of a global energy crisis.?I think it’s outrageous.

Why? They invested too little of that profit to increase domestic production, and when I talked to a couple of them, they say, “We’re afraid you’re going to shut down all the oil wells and all the oil refineries anyway, so why should we invest in them?”

I said, “We’re going to need oil for at least another decade.” And that’s going to exceed — and beyond that — we’re going to need it. Production. If they had in fact

invested in the production to keep gas prices down — instead, they used the record profits to buy back their own stock, rewarding their CEOs and shareholders. Corporations ought to do the right thing. That's why I propose we quadruple the tax on corporate stock buybacks and encourage long-term investments.
